The Missouri Miner

Missouri School of Mines & Metallurgy

Volume 31

(Featuring Activities of Students and Faculty of MSM)

Number 4

MATHEWS BACK, TWO NOW ON ED. STAFF

In spite of his letter of resignation printed in last week's issue of the *Miner*, Ralph A. Mathews, Star (and only) reporter on the Staff, has been prevailed upon to resume his old duties and his familiar style may once more be observed on the pages of this document.

Another new addition to the staff is Dean Daniels who took over the job of Sports Editor to fill in the vacancy left by ineligibility of Joe LaPage.

An additional try-out has been welcomed to the Editorial Staff in the personage of Don Meyer who has made several contributions during the last few weeks.

There are still several vacancies on the Editorial Staff and anyone who is interested in writing is welcome to try out for a position on the staff. A try-out must serve efficiently for at least one semester turning in a minimum number of column inches each month to become a member of the Staff. Anyone interested in becoming a try-out should contact the Editor.

LOAN FUND GIVEN MSM BY ROLLA LIONS CLUB

The Rolla Lions Club recently donated to the School of Mines \$200 to be used for the purpose of assisting worthy students in getting an education.

This loan fund unlike the Jackling and other similar funds is not restricted to upper classmen. Any student including freshmen are eligible to receive aid from the fund. The loans will be handled through the Dean's office similar to other funds.

The money was contributed for services which the school has extended to the Lions Club over a period of years.

The main purpose of the fund will be to help men of freshmen and sophomore standing since these men are not eligible for loans under the Jackling fund.

The school extends its appreciation and thanks to the Lions Club for the money, and hopes that the spirit of cooperation between the school and the club may continue.

MSM DANCE BAND TO BE FORMED AT U. S. O.

by Amy West

Some interest has been shown in the organization of a dance band of Missouri School of Mines students with the primary purpose of playing for Saturday night dances at the U. S. O. It has been the custom to bring in bands from the Fort for this purpose; but, for the past few weeks, no bands have been available. Therefore, Mr. Lombard, director of the local U. S. O., has made the request for a dance band from the school, thus providing an opportunity for the students not only to have a great deal of enjoyment out of such an organization, but also to perform their particular service to visiting service men.

At present, four trumpets, a bass, and a clarinet have been "signed up." There is a need, for more clarinet or saxophone players and a piano player in order to have a more balanced band. There is also a need for a drum player to add that very vital finishing touch. Drums will be provided by the U. S. O. The band members will be paid for their playing.

If you can play any of the instruments that are desirable in a dance band, sign your name on the list at the Registrar's Office, and as soon as enough sign up, the real organization will begin. Let's go out for a really good M. S. M. dance band.

PUBLICATION DATE FOR ROLLAMO UNCERTAIN

"Chief" Davis, Editor of the *Rollamo*, when asked of an approximate release date for the *Rollamo*, gave a wry, sheepish grin, shrugged, and said, "I don't know for sure." Taken aback by such frankness your correspondent pressed the question in various forms designed to trap the unwary Chief.

But he parried and apparently escaped without divulging the juicy news. Wait—is it a pack of Camels the interviewer dangles in front of Mr. Davis? Yes, they're Camels. The Chief breaks. "I don't know, honestly. The engraver is short-handed and the printer out of skyblue-pink ink. Besides, the school put in a big

(Continued on Page 4)

Theta Tau, Honor Engineering Fret, Wins Spring Scholastic Crown

Theta Tau, honorary Engineering Fraternity, took the crown for having the highest scholastic average for the Spring Semester. This is the first time in several semesters that any organization has won over Alpha Chi Sigma, Honorary Chemical Fraternity, which finished almost two tenths of a gradepoint average behind Theta Tau for the past semester. The average for Theta Tau was 1.807 and that for Alpha Chi Sigma was 1.634. The Engineer's Club finished behind AXE with an average of 1.628 closely followed by the Senior Class with a 1.620. As is seen the average for the senior class is the highest for all of the classes; the junior was next of the classes with an average of 1.404, then the freshmen with 1.218 followed by the sophomores with a 1.092.

In the fraternities, Sigma Pi again was at the top with a 1.414, followed by Triangle, and then Sigma Nu. Sigma Nu had the highest average for active members, but had the lowest for pledges, whereas Triangle had the highest for pledges and was third for actives. Sigma Pi came out on top by virtue of being high in both actives and pledges though not quite at the top of either one.

The averages for the different organizations are as follows:

Theta Tau.....	1.807
Alpha Chi Sigma.....	1.634
Engineers Club.....	1.628
Senior Class.....	1.620
Independents.....	1.532
Unclassified.....	1.531
Women Students.....	1.455
Sigma Pi.....	1.414
Junior Class.....	1.404
Triangle.....	1.323
Sigma Nu.....	1.320
Entire School.....	1.317
Men Students.....	1.310
Pi Kappa Alpha.....	1.229
Freshman Class.....	1.218
Fraternity Total.....	1.193
Lambda Chi Alpha.....	1.180
Sophomore Class.....	1.093
Kappa Sigma.....	0.989
Theta Kappa Phi.....	0.665
Fraternity Members	
Sigma Nu.....	1.426
Sigma Pi.....	1.390
Entire School.....	1.317

Triangle.....	1.265
Pi Kappa Alpha.....	1.249
Total Frat Members.....	1.215
Lambda Chi Alpha.....	1.202
Kappa Sigma.....	0.956
Theta Kappa Phi.....	0.716

Pledges

Triangle.....	1.700
Kappa Sigma.....	1.578
Sigma Pi.....	1.432
Pi Kappa Alpha.....	1.191
Lambda Chi Alpha.....	1.088
Theta Kappa Phi.....	0.408
Sigma Nu.....	0.366

STUDENT DIRECTORY TO GO ON SALE SOON

A special Student Directory for the summer semester is now being printed under the direction of the Missouri Mines Beta Omicron Chapter of Alpha Phi Omega, National Service Fraternity. This job is usually taken on by the Blue Key but since they only do it during the regular term and since a directory of some sort is needed this summer, APO decided to do the job. Next fall the regular directory will come out again under the auspices of the Blue Key.

The Summer Directory is pocket size and will include the names, curriculum, class, address and telephone number of each student in the school. It will also include the name, department, address and telephone number of each Professor and each person on the payroll of the Missouri School of Mines as well as the heads of the Geological Survey, and the Bureau of Mines. Coupled with this information will be facts and information about the workings of the Campus in general, including the Officers of all the student organizations for the summer semester.

The price of the Directory will be fifteen cents a copy and it will be placed on sale in about a week through all members of Alpha Phi Omega. There will be a limited amount of copies of this directory available, so plan on getting your copy early. No student should be without one.

THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published every Tuesday during the school year. Entered as second class matter April 2, 1915, at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

Subscription Price—\$.75 per Semester.....Single copy 5¢

As a MINER Sees it

It is now time in the history of this Gazette to devote a little space to our noble editor. Number one: He smokes a very sad pipe. Why don't you burn it before it burns you? You know there are ways of liquidating pipes and their smokers. Remember Bennett, Hitler had a pipe.

Did a young lady in this town tell Rutledge that he needs a two way stretch? Please, ladies of the town, send donations for Rutledge's fallen chest.

Doisy, is that your own little boy you brought into Tucker's the other day? Looks like a fine child, Poppa.

Wekking and Bahn seem to have some very attractive wall paper. Don't you like live women, boys?

You older Miners all remember Al Ploesser, the man with the big college smile. Well, he blew into town at six a.m. Friday morning in a sharp sailor suit and proceeded to wake up every man that he could lay his hands on with the big words, "The Navy's great, I wish I was in the Army. Let's go to the Pennant for a beer." Don't you know when you're well off?

The Selective Service System is really scraping around the bottom these days. Last week it was LaPage, this week they scraped the very bottom and pulled out no other than Bill Bennett. How could the Federal Government make such a tragic mistake?

I hate to be personal Leo, but aren't you thinking a little too much about yourself these days? Let's worry about somebody else. Let's not worry about ourselves so much. The fault doesn't lie in others, Leo, it lies within ourselves. But a man keeps most of his problems to himself.

Alvarez claims that since he has added Spanish to his schedule, he hasn't any time to prow around. Better ask Masterson about this.

Whenever you spit into the scum gutter of Rolla's new swimming pool, think of Bonebrake Davis. Hafeli said, "That boy welded it with his own little white hands."

As a Miner sees it, Hafeli could use a little help on his swimming pool. Get a case of beer and have a "building" party.

Have you heard, Sidno has given up wine and women, and has taken to his books (or is it bookies), it says here.

I've often wondered where the

Jo-boy twins, Johnk and Buchanan, spend each night. It has been rumored that one goes to church while the other goes to the Pennant to indulge in some light drinking. If someone can verify this statement, will they please notify the writer of this column?

Will someone please ask Bill Break, better known as Prof. "Wee Willie" Break, why he goes every night to the Miner's Cafe to have his nightly beer? Could it be the waitress?

Now that Schirmer has left for the Navy, Ralphie boy has an open field with the lady. But I ask the question—is he so lucky?

The other night at the softball game, it seemed as if the Pi K As were having a contest to see who could fall the best. As usual Rutledge won out. Maybe if he would fall on his head a few times it might do him some good.

As time runs short I must conclude this article. Undoubtedly this will be my last article, as I have my doubts whether the editor will appreciate the kind of remarks which I have made about him. No sense of humor. See you in the funny papers.
 P. S.—

AS ANOTHER MINER SEES IT

Though he may or may not possess innumerable unmentionable characteristics, never let it be said that the English Department's Head, one C. B. Guest, Ph. d., and Professor of American Literature, doesn't stay on his toes for more lucrative, ear-pottering phraseology for the enjoyment of the masses.

The hoi-poioli were treated to a description of the permeation of the Ph. d.'s abode by a troop of ill-bred, unhousebroken capons who have lately taken residence next door. No longer does the Doctor arise with the sweet aroma of frying bacon and browning corn pones forcing his nostrils to quiver. No—now the Doctor is in Dogpatch, U. S. A. The "skonk-works" is next door and so weak does it cause our hero to become, that the head man—"Big Barnsmell"—trips gaily by, unmolested.

Such goings on! Perhaps with the aid of the newly arrived hot weather the Doctor will no longer be "Available" for duty at Norwood.

Bear up, sir—your day of revenge will come. Perhaps you'll awaken some fine ayem to have the aroma of fried capon,—yeah, Southern fried capon, suh—in your nostrils.

Then there was the woman who early one morning leaned out the window and yelled to the milkman, "Have you got the time?"

"Yes," he replied, "but who will hold my horse?"

INTRAMURAL Sports

SOFTBALL

The standings:

	Won	Lost
Independents	1	0
Pi K A	3	1
Theta Kap-Triangle	3	1
Sigma Pi	3	2
Bureau of Mines	1	1
Sigma Nu	0	3
Lambda Chi	0	3

Last week's results:

June 25: Sigma Nu 7, Theta Kap-Triangle 3.

June 26: Bureau of Mines 11, Sigma Nu 1

June 27: Pi K A 9, Lambda Chi 6

June 28: Independents 4, Sigma Pi 1

June 29: Theta Kap-Triangle 1, Bureau of Mines 0

It took Doisy and the boys from Sigma Pi eight innings to beat Tappmeyer and the Theta Kap-Triangle team 7 to 4 Monday night. Both teams scored three runs in the fourth inning. Sigma Pi lead off the first half of the inning with two singles and a walk to fill the bases. Tappmeyer got the next two batters out of the way, but Bogantes got a clean hit to right field scoring three runs. Theta Kap-Triangle tied the ball game in their half of the inning on Mottin's triple and three other hits. Sigma Pi won the game in the eighth on a couple of hits and poor infield playing. This was the first game TK-T had lost.

Tuesday evening Sigma Nu lost their third straight game. The Bureau of Mines team with White pitching won the game by the score of 11 to 1. Wally Kiburuz pitched for Sigma Nu.

Pi K A won a sloppy game from Lambda Chi Wednesday night. The score of the game was 9 to 6. The Pi K A team scored runs in the first, second and fourth innings. Most of these runs were unearned due to poor Lambda Chi fielding. In the fourth, Finley, of Lambda Chi, hit a long home run to center field, but was called out when he failed to touch second base. Sisk was the winning pitcher, and Meenen, who struck out seven men, was the loser.

The Independents team played and won their first game Thursday. They beat Sigma Pi 4 to 1. Sigma Pi scored their only

run in the last half of the first inning. Saenz got a hit through short and scored when Bahn doubled to center. The Independents team came back in the first half of the second to score all of their runs and win the game. Two walks, a single, and a couple of errors brought two runs home. Then with a man on base, Johnk, the Independents' pitcher, hit a long fly to center field which turned out to be a homer and two more runs for the winning team.

Friday night, Theta Kap-Triangle broke back into the winning column by beating the Bureau of Mines team in a close game 1 to 0. Nomi, playing for the Theta Kap-Triangle team, came home with the winning run in the second inning. The rest of the game was a pitcher's battle between Tappmeyer of the winning team and the Bureau's pitcher, White.

TENNIS

The intramural tennis for this week started out well with Pi K A taking both double and singles from the Sigma Pi boys. In the singles Bill Rutledge won over Marco Bogantes and in the doubles Jack Sisk and Jim McKelvey beat Jim Casler and Dick

Doisy.

Tuesday night Sigma Pi turned the tables on Lambda Chi Alpha by defeating them in both matches. March Bogantes of Sigma Pi overwhelmed Bob Heineck of Lambda Chi in the singles, and similarly Jim Casler and Dick Doisy beat Carl Finley and Jack Masterson.

Pi K A continued their winning ways Wednesday night when they again won both matches, this time over Sigma Nu. Bill Rutledge of Pi K A mastered the Sigma Nu representative Ric Rolaff in the singles and his fraternity brothers Jim McKelvey and Jack Sisk pulled away from Art Fuldner and Walter Kiburz of the Snake House.

Thursday night Marco Bogantes of Sigma Pi again proved the Victor in his singles match with Ralph Mottin of Theta Kappa Phi. Sigma Pi also won the doubles on a forfeit.

The matches between Pi K A and Lambda Chi Alpha on Friday

SIGMA PI

Sigma Pi is starting the ball rolling with the first dance of this semester next Saturday, July 7, at the usual hours, from 10 'til 2. The affair is to be informal and is going to be held in the chapter house at 1507 Rolla Street next to the cinder track. All Miners with dates are cordially invited to attend and have a wonderful time. Come on, ye Miners, let's start the summer social season right. Everybody come.

Come up and see my itchings some time said the skin doctor to his pretty feminine patient.

HANLEY TO SPEAK AT AIME MEETING JULY 11

The student chapter of the AIME will hold its first meeting of the summer term on Wednesday, July 11th. The time is 7:30 P. M. and the place is the club room in the Metallurgy Building.

Prof. H. R. Hanley will speak on "Experiences in Mining and Metallurgy." Prof. Hanley has had years of experience in the development of modern metallurgical practices in the West.

Everyone interested is invited to attend this meeting, and as usual there will be refreshments.

RESOLUTION

WHEREAS, on the afternoon of June 8, 1945, the city and community of Newburg, Missouri was visited with a torrential rain of cloudburst proportions which swept through our city causing loss of precious lives, the complete destruction of several homes and severe damage to others, paralyzing our communications,

water supply and traffic, and, WHEREAS, the destruction thus created has caused untold suffering and hardships to be borne by the people of this community in the loss of homes, furniture, clothing, and above all, in the loss of lives and possessions irreplaceable, and

WHEREAS, in our hour of trial and sorrow, the untiring and wholly unselfish efforts of many persons and organizations rendered immediate and continued relief to our distress, and, WHEREAS, We are deeply indebted in gratitude to all who so nobly assisted us, and particularly to the following:

Hon. Phil M. Donnelly, Governor, State of Missouri
Col. Duvall, Commandant, Fort Leonard Wood
Adjutant General John Harris and his staff

State Highway Patrol
American Red Cross
Salvation Army
County Court of Phelps County
City of Rolla, Missouri
Town of Edgar Springs, Missouri

Rolla Boy Scouts
Students of Missouri School of Mines

Hundreds of other Citizens of Rolla and this area

NOW, THEREFORE, BE IT RESOLVED that we, as the city officials of Newburg, Missouri no behalf of all the people of this community, express to the above named persons and organizations our heartfelt appreciation and sincere gratitude for splendid co-operation and assistance rendered to us in this, our greatest catastrophe.

CITY OF NEWBURG
By S. L. Baker, Mayor
by N. L. Spradling,
President, Board of Aldermen

She was trying to work her way through college selling The Saturday Evening Post, but all the fellows wanted to take Liberties.
